HAPPY VACATIONISTS

Master William Herridge, son of Hon. W. B. Herridge, Canadian
Minister to Washington and Mrs. Herridge, and nephew of Canada's
Prime Minister, Rt. Hon. R. B. Bennett, is seen here with his mother,
both of them apparently enjoying themselves at Canada's great
Maritime playground, the Katy's Cove beach of the Algonquin Hotel
St. Andrews-by-the-Sea, New Brunswick, where they are spending
their vacation. Major Herridge joined them there for a while.

Had a Narrow Escape.

Messrs Waith and W Hill,
of Edmonton, narrowly escap-
ed serious injury on Saturday
evening when a team driven
by Mr Mike Coyes of Glory
Hills got out of control and,
at the intersect of Meridian
road and the Jasper Highway
crashed into the Plymouth
sedan in which they were driving
west. The pole of the
democrat to which the horses
were hitched entered the left
side of the car, smashing the
glass and other wise damaging
the body; also cutting the side
of the driver's face. The occu-
pants of the democrat were
thrown to the ground. John
Namanieff suffered injuries
to his shoulder; and Mrs
Coyes received injuries about
the head. Both injured per-
sons were attended to by Dr
Oatway, who also took Naman-
ieff, Mrs Coyes and her
daughter to their homes in his
car. Mr Coyes went to look
for the horses. It is under-
stood Mr Coyes, the driver of
the team, will be asked to
foot the car-repair bill.

"The Forty-Hour Devotion"

On Sunday, Sept. 3d, Rev
J R Rolfeiser of St Joseph's
Cathedral, Edmonton, will
open "The Devotion of the
Forty Hours" at 11 a.m., at
St Philip's church, in Stony
Plain. Sermons will be given
in the German language and
in the English language.

Services will be continued
on Sunday evening at eight
o'clock; also on Monday Eve.
and on Tuesday Eve. at the
same hour. Rev C Keenan, pa-
stor.

Feed For Sale.

John B Miller, formerly a
blacksmith in Stony, was in
town the other day. John re-
ports the total loss, by hail,
of the crop on his farm up at
Heatherdown. After making
a survey of the damage done
by the storm, he decided to
cut the grain with a mower,
and now has a number of
stacks of green feed on his
80 acre farm—a great deal
more than he'll need for feed,
and so has a quantity to sell
to those who are short of feed
for their cattle.

A Market for Your Straw.

If the efforts of a few pro-
moters meet with success,
local grain raisers will not be
driven to the necessity of
burning their straw, as there
promises to be a near-hand
market for this. The promot-
ers intend building a factory
for the manufacture of straw
paper, in the Edmonton dis-
trict. The promoters recently
made a survey of the districts
surrounding the city of Ed-
monton, with the object of
assuring their factory of a
suitable supply of the raw
material when the mill starts
operations. The idea at pres-
ent is to commence on a small
scale, with an output of some
ten tons of straw paper a day,
and, if conditions warrant it,
to enlarge the original plant
to meet all requirements.

Agents for BRITISH AMERICA OIL CO.

The Only Correct Lubrication—We have the only 9000-lb.
Pressure Gun west of Edmonton. Let us grease your car.

SERVICE GARAGE, Stony Plain.

A Call To Service.

The prairie provinces of Canada are again this year faced with the heavy losses, and the resulting problems, which another crop failure over extensive areas brings in its wake. The Western United States are in the same deplorable state. Drouth, grasshoppers and other insect pests, wind and hail, have all taken their toll, and hundreds of farmers for the third, fourth, even fifth year in succession have nothing to show for their year's labor. It is a discouraging situation.

According to the reports of the Dominion Bureau of Statistics the yield of wheat will be the smallest, with the exception of one year, since reports began to be compiled by the Bureau 25 years ago. What is true of wheat is true of other grains. Officials and inspectors of the Saskatchewan Relief Commission state that the relief problem will be as great, if not greater, than in any previous year in that province, while a Manitoba cabinet minister is reported as saying that 2,000 farmers in one section of that province will not thresh a bushel of wheat.

The enormous direct loss thus imposed on the people of Western Canada, and the largely reduced purchasing power of this country, will have a direct and adverse effect upon employment not only throughout the West but in the factories of Eastern Canada, upon our railways, and upon our national, provincial and municipal finances.

Governmental relief must be forthcoming to meet all absolute needs of people, to prevent actual suffering, to conserve the health of people,—in a word, to sustain them and provide for their needs for another year at least. This is the least that any government can do for its people; it is, in fact, a primary responsibility of any government, a duty that must be discharged.

There have been periods of crop failure all down through the ages and in all countries, and governments have had to care for their people. But plenty has also followed famine. Discouraging as the present outlook may be, there is no cause for despair. People will be provided with the necessities of life; they are not going to be left to suffer and starve. They will have nothing to show for their year's work, it is true, but they will be able to start again next year.

But there is surely something that people can do for each other in times of discouragement and need like the present. There must be scores of ways in which people can assist and encourage each other even though they may have little in the way of available resources. While Governments meet absolutely essential needs, cannot people through voluntary effort of their many organizations, and as individuals, extend not merely sympathy but practical encouragement and help to others who have suffered much more severely and are in danger of losing confidence in themselves, in their country, in mankind itself?

In this connection it is gratifying to read of the action taken by the citizens of Kerrobert town and district in Saskatchewan. Representative citizens have banded themselves together, and are promoting a relief organization for their district, which will not interfere in any way with the work of the rural, municipal, or town councils, or government relief, but which will be supplementary to all these official agencies. These citizens will themselves bring that sympathetic human touch, and provide assistance in various forms which no official body can do, but which are so essential in maintaining the morale of people.

Voluntary organizations of all kinds throughout Western Canada should appreciate the fact that, whatever the object of their organization, there is no finer, better, more important and necessary work they can do this winter than in extending co-operation in all measures of relief.

There is really little excuse for the existence of any organization in our community life which does not at a time like the present forget all else but the welfare of people who are in need, and arouse its membership to assist in meeting these needs whatever they may be.

The State, representing all the people, will discharge its obligations, but let the great heart of humanity as represented by each and every one of us, and by so many of us organized under different names and for many different purposes, respond to the call, carry all the cheer that is possible into discouraged homes, and let the sunbeams of life that can possibly be spread about, and thus bring encouragement to those who are inclined to think there is no longer even hope left to them.

Submerged Village Uncovered

A fishing village near Tellicherry, North Malabar, with a temple at one end, was submerged by the sea in 1896. With the coming of the 1933 monsoon the village gradually is being uncovered. An extensive stretch of sand has emerged connecting the site of the village with the mainland and people are visiting it searching for relics.

At the London economic conference the Germans installed their own telephone switchboard and German operators.

India is importing more commercial motor vehicles.

Barley Staple Crop In Japan

Barley, naked barley (rye) and wheat constitute the staple crops raised on the upland farms in Japan. Owing to the high protein content and excellent milling qualities of Canadian hard wheat, the Japanese use it in a standard mixing substance with the softer wheats from the other countries from which Japan draws her supplies.

At 452 degrees below zero some metals, such as silver and copper, lose their resistance to electricity, becoming superconductors.

Peru's exports drop 50 per cent. higher than last year.

Summer Complaint Plays Havoc With the Bowels

Few people escape an attack of summer complaint. It may be slight or it may be severe, but both the young and the old are liable to it during the summer months. You cannot tell when it seizes you how it is going to end. Let it run for a day or two and see how weak and prostrate it will leave you.

On the first sign of an attack of any looseness of the bowels take a few doses of Dr. Fowler's Extract of Wild Strawberry and see how quickly it will give relief. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

The Age Of Aluminum

Two Railroad Cars Made Of This Metal Exhibited At Chicago

David Dietz, in an article in New York World-Telegram, says: "Two all-aluminum railroad cars are among the most interesting and most important exhibits in the Hall of Transportation at the Chicago Century of Progress World Fair.

One is a combination of coach, parlor and observation car facilities. The other is a combination of sleeper, parlor and observation car. Both are gleaming, inviting works of art. On the day I visited the Hall of Transportation thermometers were registering a temperature of 100 on the sidewalks of Chicago, and the air-cooled interiors of these two cars were the most comfortable spots on the fair grounds.

The bodies and trucks of these two cars, with the exception of the springs, axles and wheels, are made entirely of aluminum. This is the first time that this has been accomplished, although aluminum car bodies were fabricated two years ago.

To many engineers, these aluminum cars represent the direction in which the railroads must go to recover their business. In other words they must make travel by rail so attractive and inviting that tourists will prefer it to their own automobiles.

But in addition, many engineers see more than railroad recovery in these two cars. To them they are the symbol of the new age, the Age of Aluminum.

Many railroads are beginning to turn their attention to the subject of aluminum rolling stock."

Agrees On Wave Lengths

Canada Satisfied With Agreement For Radio Outlet Broadcasting

Judge E. O. Sykes, of Mississippi, chairman of the United States radio delegation of Mexico City, in a press statement, said Canada and the other eight North and Central American countries represented at the recent radio conference, reached entire agreement regarding frequencies or channels for radio other than broadcasting. He mentioned in this classification television, aircraft, state police, point to point telephone and telegraph, coastal telegraph and telephone, ship telegraph and telephone and amateur.

He further said agreements reached on technical matters relating to broadcasting would be of great benefit. While the conference failed to reach agreement on assignment of channels for broadcasting to various countries, it agreed on certain technical regulations of this class of radio.

Functions Of Central Bank

Would Not Necessarily Do Away With The Present System

Warning against Canadians adopting the view that the particular function of a central bank, in the event such is established in Canada, is to extend credit to agriculture, was given by Professor T. E. Gregory, British economist, who addressed the Canadian Club in Regina.

"It is fundamental to my view of central banking that it should keep its hands off any one particular industry," said Professor Gregory, "whose address dealt with the subject of central banking. W. G. Yule presided at the meeting.

If Canada, as a result of the work of the MacMillan commission established a central bank it would not necessitate doing away with the present banking system, he said.

Ocean Space Limited

A considerable number of cattle are finished and now available for export. Ocean space, however, seems to be inadequate to meet the requirements of many producers who wish to export their own live stock. Due to the steady flow of cattle leaving Canada, this condition should remedy itself in due course. Intending shippers should try to secure space from the broker some considerable period prior to the contemplated date of shipping.

While the human population of the world is estimated at 1,849,500,000, the rat population is placed at 10,000,000,000, or at the proportion of six to every human being.

Poor Crop In Canada

Wheat Crop Lowest In 25 Years With One Exception

Agricultural experts thundered record books, comparing crop conditions with those in past years. This is what they found:

The condition of the Canadian wheat crop is the lowest in the records of the Dominion Bureau of Statistics, going back 25 years, with the exception of 1931.

The barley crop is in the same position as wheat—the lowest in 25 years with the exception of 1931. The flax and oat crops are the lowest in the records of the bureau.

Only once, in 1914, were Canadian pastures in worse condition.

The crop year 1931 was particularly bad for Canada because of drought conditions throughout the southern growing areas of the prairies, particularly Saskatchewan. This year drought, and heat reinforced, by plagues of grasshopper, have taken a toll of millions of dollars. Dry weather this year extended from Quebec westward to the Pacific coast.

Russia Caring For Horses

Animals Now Given One "Free Day" Each Week

Every dog has his day—but now it's Old Dobbin's turn.

There are 30,000 equines in Moscow and they are poorly fed, badly cared for, and abominably treated, even though their constant beating or otherwise mistreating their horses lose their driving licenses and food carts and are liable to prison sentences.

The plan of the transport department, the Moscow Soviet has taken steps to remedy this deplorable state of affairs. It has decreed that each horse shall enjoy a "free day" every sixth day, just as the human being is permitted to do in the U.S.S.R. Thus 5,000 horses will be out of service every day in the year.

The plan of the transport department for the care of its animals goes farther. It is establishing a rest home for its horses: Free, green pastures for the lame and the tired, special diet for the poorly nourished, medical care for the sick.

Canadian Radio Broadcasting

Western Canada To Have Its Own Regional Directors

Western Canada will have its own organization working within the Canadian Radio Broadcasting commission. This machinery will be set up shortly, according to T. Maher, vice-chairman of the commission.

Three regional directors will be appointed for western Canada, one stationed at Vancouver, another in Winnipeg, and the third appointed from Alberta. The directors, together with men will constitute a board to govern, under the commission program, the western regions chain, Mr. Maher said.

In addition there will be appointed Winnipeg, Regina, Moose Jaw, Saskatoon, Calgary, Edmonton and Vancouver, representatives of the commission.

Abandon Trackage

United States Railways Find Truck And Motor Bus Best Business

A combination of factors, of which officials find the primary one to be the rapid development of hard-surfaced highways, is causing the railroads of the United States to abandon trackage at a greater rate than ever before.

Figures in interstate commerce commission reports show 1,800 miles of track were abandoned in the nine months ending August 1, which nearly doubles the 945 miles abandoned in the entire year ending November 1, 1932.

Upside-Down Flying

U.S. Aviator Travels 200 Miles In Inverted Position

Flying with his landing gear turned skyward, Lieut. Tito Falconi, Italian Royal Air Force officer, registered his upside-down flight record only 24 hours after he had lost it to Milo G. Burcham, 30-year-old Long Beach, Cal., aviation instructor.

Falconi flew in an inverted position two hours, eight minutes, 54 seconds, making a round trip to Santa Barbara, about 200 miles.

DRIVES HIMSELF TO WORK AT 82

And Still Plays a Little Golf

How many of us, when we are 82, will be equal in health and activity of this vigorous old Scottish engineer? In a letter he says:—"I arrived here from Scotland on the 7th April, 1870. I am over 82 years old. I drive my Ford Car 40 miles over hills and dales to a factory, and can still play a little golf. I have taken the little dose of Kruschen Salts in my cup of coffee every morning for some years, and I believe it is keeping me in good health and enabling me to keep on working at the factories as engineer—L.A.

Whether you are still in your 'teens or past your prime, it is neither too early nor too late to start on the "little daily dose." Just a tiny, tasteless pinch of Kruschen Salts in your morning cup of tea or coffee. They ensure internal cleanliness, and keep the blood-stream pure. New and refreshed blood is sent coursing to every fibre of your being. Rheumatism, headaches, indigestion and backache all pass you by.

Alberta Sugar Beet Industry

Has Brought Greater Stability And Security For The Farmers

Introduction of the sugar beet industry to southern Alberta has brought greater stability and security to farmers in the irrigation areas and the factory at Raymond, Alberta, is now a steady source of revenue for the grower.

Outlining the growth of the industry, D. W. Buchanan, student of western affairs, points to its success in a paper prepared for the Institute of Pacific Relations conference. Effective control has made development of sugar beet growing a great aid to mixed farmers of the area, he finds.

For the past two years the total sugar tonnage secured has run over 100,000 tons. The factory was increased to a capacity of 1,250 tons daily and in 1932 the factory worked 120 days to handle 150,000 tons of beets, though only planning to operate 100 days during and immediately after the cutting season.

Dealing with payments to farmers for the sugar beets, Mr. Buchanan points out the basic price varied with a bonus being paid to growers of the sale of the sugar warranted. The basic price has been around \$5 and \$5.50.

Canadian Is Appointed

Former Edmonton Man Made Food Commissioner For U.S.

S. W. Lund, general manager of the Edmonton plant of the Swift Canadian Company for nine years and later assistant general manager in the office of C. P. Swift. Lund, has been appointed food commissioner of the United States by President Roosevelt under the recent agricultural stabilization bill passed by congress, according to word received by Gordon Robertson, manager of the Edmonton Swift Canadian plant.

According to meagre information received the former Edmonton man was requisitioned for the important post by the stabilization bill board because of his extensive experience and knowledge of the provision industry.

Mr. Lund was appointed Edmonton manager of the Swift Canadian plant in 1917, coming from Toronto where he had worked for the company for several years.

He left in December, 1926, to assume duties as assistant general manager in the Chicago office of the company.

Cigarettes smoked in Australia in the last year averaged 875 per each person.

Tests Are Being Made In Extensive Program To Improve Quality Of Western Wheat

Details of an extensive program to improve western wheat crops and thereby raise the premium which Canada obtains on world markets for her grain were revealed by Dr. L. H. Newman, Dominion cerealist from Ottawa, who is carrying out tests of the wheat with Major H. G. L. Strange, former wheat king of the world.

Description of the extensive scheme was given by Dr. Newman in this manner: "We are endeavoring," he said, "to obtain a picture of the varieties of wheat being grown across the northern farm belt to learn where the grain is fairly pure and where it is badly mixed. Now that we are getting this picture we are trying to improve the seed used by the farmers."

"Last fall," the cerealist explained, "samples of grain were collected from 6,100 farm wagons at country elevator points and this year grain has been grown from this seed. We established 16 group points with about 400 small plots at each. Now we are going over grain samples at each place. Field days, too, are being held simultaneously with the identification of the varieties."

"In some cases, the farmers did not even know the names of the varieties of wheat they were growing. The farmers, at the time the samples were taken last fall, were asked to give the name of the variety they thought they had. This was noted by the elevator man concerned and the grain was graded. Now, we are classifying the resulting grain under these three heads: Good, which is fairly pure seed which can be used; passable, suitable seed for carrying on with for a while, and undesirable, made up of a number of varieties which should not be used for seed."

Defies Superstition

S.S. Pennyworth Trip Takes No Notice Of Ill Omens

In setting a record passage of three days through Hudson Strait and Bay, the S.S. Pennyworth defied all the ill omens of the sea and defeated three ships in the race to be first vessel into the new Canadian port this season. First of all her triumphant docking was accomplished Sunday, the 13th.

She sailed from both Glasgow and Antwerp on Friday, and made her landfall at Resolution Island 13 days after clearing from Antwerp. She picked up her pilot at Churchill Sunday at 13 hours 15 minutes, ship's time, 13 days after leaving the British Isles at Foulness Pier, and so became the 13th ship to reach Churchill from Europe since the port was established two years ago.

When the ship's log was hauled in outside Churchill harbor, it registered exactly 13 miles, and the forecast and showed a draft of exactly 13 feet when the ship was moored at the dock.

And then Captain Giffon remembered he celebrates his birthday on the 13th.

Britain To Build Ships
A substantial addition to the British navy, including several cruisers, destroyers and submarines, is being planned as a sequel to the recent ship-building programs of the United States, Japan, France and Italy. The Admiralty is understood to be planning to provide for the program in its next budget. The ships, however, cannot be completed before 1936, because of the London naval treaty.

New Definition

An optimist is a man who rejoices in news of drought, floods, locusts, chinch bugs, tumbleweeds, phylloxera, hoof and mouth disease, boll weevils and other constructive forces tending to raise prices. A pessimist is a man who disseminates news about the growing weather, thriving flocks and other factors inimical to a firm price structure.

Each passenger riding in a Turkish commercial aviation airplane is automatically insured for \$4,700.

W. N. U. 2088

Soil Fertility Condition and Texture Is As Essential As Chemical Composition

In considering the matter of soil fertility and the value of soil analysis, it is well to bear in mind, says the Dominion Chemist, that the productiveness or fertility of a soil is by no means entirely determined by the percentages of plant food constituents present, nor even by the proportions of those which may be actually available for immediate crop use. The soil, for thrifty and profitable growth, must not only contain a sufficiency of the chemical elements in readily assimilable forms to supply the food requirements of the crop, but the soil must be of such a mechanical condition or texture as to offer a fine seed bed for germination, and permit of a ready extension of the root system as growth advances. While allowing free water to pass through and drain away, the soil must have an absorptive capacity to hold over sufficient moisture for the supply of the crop during periods of drought. This is very important. It must not be too close and compact to exclude air, and at the same time it must be firm enough and fine enough to give the plant support and retain moisture. Such land is said to be in "good heart," or, otherwise stated, mellow, friable and favourable tilth. This condition is consequent upon its proportion of sand to clay and particularly upon its percentage of humus, or semi-decay vegetable matter, derived from manures or crop residues.

Quite An Occasion

Royalty Used To Take Ocean Dip

With great ceremony it is and to hear of George the Third's bathing machine, with its royal arms, fulfilling the function of a tool-shed: Weymouth should have a better memory than that. It might remember that day which Panny Burney speaks of, when his majesty stepped down to the briny to the strains of the National Anthem secreted in a neighboring machine. It took the art of bathing a long time to shake off the ceremonial touch. When the Duchess de Berri visited her bathing cabin on the beach at Dieppe, she was received with a salvo of artillery, after which "the Inspector de Bains, clad in a resplendent uniform, cocked hat, and white gloves, led her royal highness into the sea until the water reached his knees, when he retired with three profound obeisances."—London Observer.

Photographic plates are now kept in refrigerators to preserve their quality and uniformity. This treatment is particularly adapted to plates intended for astronomical purposes.

PUFFED SLEEVES ADD DRESSY APPEAL TO SLIM-LINE TAILORED DRESS

It is as interesting at the back as it is at the front. And equally smart made with long or with short sleeves as in the miniature view. For everyday occasions, you'll probably choose the long sleeves and carry it out as the original. It is flattering. Eleanor-blue shade in a novelty shadow striped printed crepe silk. For the round shoulder yoke and puffs of the sleeves white crepe was used. It's especially youthful with short sleeves in grey crepe silk. Style No. 362 is designed in sizes 14, 16, 18, 20 years, 36, 38 and 40 inches bust. Size 16 requires 3 1/2 yards of 39-inch material with 1/2 yard of 39-inch contrasting. Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Individual Effort of Every Citizen Is Needed To Work For Solution And Elimination of Economic Ills

Air And Stored Potatoes

Thorough Circulation Of Air Is Necessary To Keep Stored Potatoes In Good Condition

Careless storing of wet potatoes is responsible for unnecessary annual losses. Potatoes ought to be stored dry in a cool, well-ventilated cellar which is perfectly dark. Piling potatoes in heaps in warm and poorly ventilated cellars creates the most favourable conditions for rotting. Before placing the potatoes in a cellar, wooden slats slightly apart should be nailed about six inches or more from the wall, and a temporary floor with cracks between the boards should be laid about six inches above the permanent floor. This will ensure air to circulate around and under the pile of potatoes. If it should not happen that the pile has to be very large, square ventilators made of wooden slats and running from top to bottom of the pile should be put in here and there. Together with the circulation of air at the sides and at the bottom of the pile, these ventilators will keep the potatoes in a much better condition than if they were in a solid pile. Another good plan recommended by the Dominion Department of Agriculture is to keep the potatoes in large crates made with slats, the ventilation between the crates assisting very much in keeping the potatoes in good condition. The temperature of the storehouse or cellar should be kept as nearly 35 or 35 degrees Fahrenheit as possible.

Names Just Reversed

Puzzle Of Odd Signs In New York Easily Explained

The business of one of those observant fellows who are bothered by odd signs has taken aim along Chrysler Street several times of late, and he discovered a peculiar thing. At No. 63 is a firm of jewelers named Kovitz & Pashutsky, and five doors away, at No. 61 is the jewelry firm of Pashutsky & Kovitz. This got on his mind to a point where he went into one of the places and demanded an explanation, which was graciously given as follows: The firm of Kovitz & Pashutsky was founded at No. 63 fifteen years ago, and the two partners took a younger brother of each in as clerk. All went smoothly until it was felt the firm wasn't doing well enough to support all four. The younger brothers were advised to seek new jobs. They went up the street and opened a shop, reversing the names in the original title. There was some hard feeling at first, but now all speak cordially when they meet. Both firms seem to get enough business.—The New Yorker.

Argentina expects bumper crops this season.

Individual effort by every citizen in frankly facing his or her problem and thereby making a maximum effort towards its solution was the high road toward elimination of economic difficulties. Speaking at Ottawa recently, Hon. H. H. Stevens, Minister of Trade and Commerce, put forward this belief.

"First," said Mr. Stevens, "the individual citizen should study how he or she can contribute towards the relief of those in need. Not by giving charity but by a sane effort to use the resources that each has, in a useful way so as to provide added employment for those who require it." Painting or repairing the home, purchase of clothing or any other useful means, he illustrated, would give employment of personal resources and afford the finest contribution which could be made at this time.

"I challenge the right of a landlord to receive rentals from an insanitary and dilapidated building when he is financially able to replace it with a decent structure." From this proposal alone there could be afforded enough new and needed construction to give such stimulus to employment as to materially, if not wholly, eliminate want and suffering.

At no time had the number on relief in Canada exceeded little more than 10 per cent. of the population, and this total had been reduced, declared Mr. Stevens. If the remaining 90 per cent. put forward the best effort of which each individual was capable, a substantial absorption of those in need could be achieved.

Touching on the world economic conference, he said to term it a failure is a mistake. Without doubt, the gathering together of such a concourse of distinguished persons and the personal contacts which inevitably ensued, must bear fruit in the future.

The steady increase of the business of Canada with other parts of the empire as a result of the imperial conference agreements, said Mr. Stevens, gave evidence that where genuine efforts of co-operation were made results advantageous to all may be achieved.

New Kind Of Madness

Mild Man Turns Into Maniac When Driving Car

Powerful stuff—gasoline. There is a kind of gasoline intoxication that changes the entire nature of some men. Sometimes it is found that even the mild-mannered man who loves his family, is kind to animals and courteous to everybody, cannot stand gasoline at all. As soon as he gets into an automobile he turns polite to anybody but a policeman.

On foot, he says "You first," or "Pardon me sir, may I step ahead?" or "That's all right, old man. I'm in no hurry." But seated in a vehicle propelled by gasoline, he gets a megalomaniac's view of the value of time. He may not be going anywhere in particular but he wants to get there right away.

He watches for the smallest opening to jam ahead. If he is thwarted in the attempt, he glares at the fellow who gets in his way and perhaps huris an insulting epithet. If he is an unavoidable delay for a moment, he bawls his horn, and the aggregate efforts of the entire group of gasoline-intoxicated maniacs turns bedlam loose.

Filling the air with raucous mechanical blowing, howling and screeching is an attendant symptom of gasoline madness. Dashing about through traffic and hawking everybody out of the way is another. The manifestations vary with age and temperament of the subject but even in the mildest natures the tendency is toward crude manners and lack of consideration.—Kingston Whig-Standard.

Are you thin or fat? If you are here is advice for you. If you are thin, don't eat fast, and if you are fat, don't eat—Fast.

Bombay, India, now has 2,271 industrial establishments.

LORD BESSBOROUGH VISITS MILITARY CAMP AT PETAWAWA

Our picture, taken when the Governor-General visited Petawawa Camp, Ontario, shows His Excellency observing the army through powerful glasses while Major-General McNaughton, Chief of the General Staff, looks on. On the right of the picture can be seen Lord Duncannon, son of Lord Bessborough.—Photo by Arlona Studio, Pembroke, Ontario.

WORLD HAPPENINGS
BRIEFLY TOLD

Hundreds of men have gone to work in lumber and fishery operations on the British Columbia coast, according to government officials.

Harold Lake, who wrote the words for the song, "I Hear You Calling Me," died at his London home after a long illness. He was 51 years old.

Forty-six blind World War veterans travelled from all parts of Scotland recently to hold a reunion in Edinburgh.

Though patchy in some localities, the honey crop of western Canada will be a little higher this year than last year, according to C. V. Gooderham, Dominion apiarist, who completed a trip to the Pacific Coast.

Prominently mentioned as a possible Liberal candidate for Peel county in the forthcoming Ontario provincial election is Duncan Marshall, former Alberta Minister of Agriculture.

Renewed efforts to untangle problems that must be solved before the steel and oil industries are brought into the fold of "NIRA" were promised by Hugh S. Johnson, U.S. Industrial Administrator.

Thomas Laughran produced a sock and poured 3,000 coins on the desk of Miss Emolyn Robert, secretary of the Golden Gate Junior College in San Francisco, to pay his entrance fee. He saved the pennies during his high school days.

First of its kind in Australia is the special police branch organized by the air force, and first of the flying police is Aircraftman Snook, who is being specially trained to head the peace officers of the air. An expert flyer, he has had no previous experience as a policeman.

An improved mail service to Churchill began recently and will continue during the navigation season. Instead of only one mail each week, Churchill residents may now receive letters and newspapers on Wednesdays and Saturdays. Outgoing mail will also leave Churchill twice weekly.

Mussolini Never Flinches

Even His Dentist Cannot Get Him To Admit Pain

"Il Duce never flinches—not even in a dentist's chair."

"Quanto ai fars soffrire un poco," says his dentist, like most of his profession when about to embark on some delicate explorations of the oral cavity.

And Mussolini's answer to his soothing remark, when translated means: "This is going to hurt a little bit." Invariably is:

"Non temo il dolore (I do not fear pain)."

Dr. Arrigo Perno, of Rome, the man who for eight years has been the Italian dictator's private dentist, told how his patient carries on through the trials that make some strong men quail and whimper.

In Chicago to attend the Centennial Dental Congress, Dr. Perno said Il Duce fears neither the smart of the drill, or its descent into recesses of the tooth.

Assured by his patient that he has no fear of pain, he has born down pretty hard at times, said Dr. Perno. He hasn't been able to get a sound out of Mussolini in eight years.

Not a Certainty

Nazi Regime Will Go The Way Of All Such Movements

Chancellor Hitler says that the Nazi regime will endure forever. The interesting thing about that is not that he is wrong but that he thinks he is right. After six or six thousand years of recorded history the average man and woman know that nothing, in this world at least, can endure forever, or even for any really long time. But movements such as Hitler expresses need the kind of humorous fanaticism he enunciates to keep them going even the little while that they may endure—New York Evening Post.

Parisians can now read the time by a clock on the Eiffel tower, the illuminating at night lighting up a dial 51 feet in circumference.

Problems Of Statesmen

Not So Easy To Manage Affairs In These Days

It is, of course, unfair to judge modern statesmen by the old standards. Statecraft today has not only to handle complexities that were undreamt of fifty or a hundred years ago, but it has to reckon with a democracy so keenly alive to its own importance that in all the chancelleries of the world it has become the terror that walketh by night. It was easy to run Europe—even to ruin it—when the Man on the Street was merely a speck on the horizon. —Glasgow Weekly Herald.

Caravans Travel By Tractor

Camels No Longer Take Mohammedans To Holy City

The romantic camel caravan of the Arabian deserts has gone into history, according to Rev. S. M. Zwemer, Presbyterian missionary.

Automobile bodies adjusted to caterpillar tractors have entirely supplanted the camel, he said today, in conveying the thousands of Mohammedans across Arabia on their annual visits to the Holy City.

Even in these dull years, he said, at least 50,000 annually make the pilgrimage.

Winnipeg Newspaper Union

By Ruth Rogers

YOU'RE BEING SOMETHING SMART FOR TOWN! HERE'S YOUR MODEL

It's a youthful affair, rather suggestive of military styling.

Especially those who might consider a little slenderizing—will find this model exceedingly attractive. While a slate-blue soft crinkly crepe silk inspired the original model, a red and white patterned crepe, a dark blue and white polka-dotted crepe or grey crepe silk are other good schemes.

The cape is removable. The pattern provides for long or for short sleeves. Style No. 740 is designed for sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42 inches bust.

Size 36 requires 4 1/2 yards 39-inch with 1/2 yard 39-inch lining for cape. Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap cloth carefully.

SUNDAY SCHOOL LESSON

AUGUST 27

SAUL

Golden Text: "Behold, to obey is better than sacrifice."—1 Samuel 15:22.

Lesson: 1 Samuel, Chapters 9-11, 15.

Devotional Reading: Psalm 40:1-8.

Explanations and Comments

Saul Discovers Samuel's Orders 1:2—Saul directed Saul to utterly destroy the Amalekites—all the people and all their possessions. Saul carried out the order, only he spared Agag the King of the Amalekites, and the best of their sheep, oxen, fattage and lambs. It was really a test whether the king would be ruled by God through Samuel his prophet, or whether he would be a self-willed despot. He proved to be the latter.

On learning what Saul had done Samuel was very angry and set out to meet him.

Saul's Falsehood and Then His Attempt To Shift the Blame, verses 13-15. "Blessed be thou," Jehovah," were Saul's words of greeting when Samuel met him at Gilgal. This was a common form of salutation, yet Saul's use of it here may have indicated a guilty conscience and a desire to conclude the prophet by a gracious greeting.

"When my ten-year-old son comes in from school with an affectionate greeting, I begin to sit up and take notice. When he is unusually voluble, and his laughter seems forced, I think at once of a partridge fluttering across the hunter's path with drooping wing, to lure him from his near-by nest. When he manifests an extraordinary solicitude for my health and for my fatigue under the duties of the day, I am sure that something has happened at school; and if he is careful to steer all the conversation away from the school, I know that I must begin to conduct a catechism."

Then Saul sought to forestall the accusation which he felt was coming by stoutly announcing, "I have performed the commandment of Jehovah." He was convicted of falsehood by circumstantial evidence, for Samuel asked, "What meaneth this bleating of the sheep in mine ears, and the lowing of the oxen which I hear?"

"Ah, yes, those oxen and sheep," Saul may have said, while he hastily thought what answer he could give for the presence of the large booty. "But those belong to the people," he said, "they who spared them," he then said. That the king whose word was law should attempt to excuse his violation of the prophet's command by saying that he could not help it, the people were responsible, was very weak. Having shifted the blame from his own shoulders he proceeded to excuse the people, claiming that the animals were the best of the flock, and had been preserved for the best of purposes, to be offered in sacrifice to God. Recall Aaron's excuse for the golden calf. The people had brought their gold and he had cast it into the furnace, "and there came out this calf," he said to Moses, when Moses arraigned him for his sin. He, too, declared that the motive was good, he had built an altar before the Lord, and proclaimed a feast to Jehovah. Adam blamed Eve, and Eve blamed the serpent.

"Very rarely indeed does a man excuse himself to other men and yet remain absolutely excused in his own eyes. When Pilate stood among the responsibility of Christ's murder from his hands before the people, was he feeling himself as if his hands were cleaner while he pushed? Men differ, perhaps, nowhere else more than in

Razor Blades FREE
with POKER HANDS!

You can get these five keen, well-honed safety razor blades (fit any Gillette-type razor). Given free for just one complete set of Turret Poker Hands... any man would appreciate such a gift!

Tells Time By Lights

Hugo Clock In Paris Has Not Regulation Face and Works

Parisians are seldom concerned over the time of day. There is inherent in the French temperament too great a capacity for enjoying fully the present moment to permit any particular preoccupation with the passage of the hours. Engrossed in the pastime of appreciating culinary delights, for instance, the Parisian would probably be inclined to resent having a "Big Ben" boom out the fact that he has been at the luncheon table two hours already. The absence hitherto of any outstanding timepiece in Paris is probably explained by some such scruples, and at the same time explains the exceptionally great interest taken in the debut here of what is authoritatively described as "the biggest clock in the world."

Certainly it is one of the "tallest," for it is placed about two-thirds of the way up the Eiffel Tower, at the height of 636 feet, and it measures 63 feet in diameter. Besides its unusual dimensions, however, the French version of "Big Ben" also has other claims to distinction. For although it is visible from almost any point in Paris, it has no face, no hands, and no works—at least not in the usual sense of the terms. The answer is that the new clock is a luminous one. The hours, from one to twelve, are simply great colored lights, or reflectors. The "hands" are lines of electric light bulbs, which burn for a minute, then go out, and the line further on is then illuminated to burn in its succession for one minute. The hour "hand" operates in the same way, but of course more slowly. The "movement" is regulated by a synchronized electric motor. —Christian Science Monitor.

Historic Sites

Movement For Preservation Of Places Of National Interest Started In 1919

The movement for the preservation of national historic sites in Canada dates back to the year 1919. Representatives were made to the then Dominion government urging the necessity of a national organization for the preservation of historic sites and as a result an honorary Historic Sites and Monuments Board was created. This board is composed of a number of eminent Canadian historians who have given their services without compensation. The recommendations of the board are made to the Department of the Interior, which through its national parks branch takes the necessary action.

Used New Type Balloon

In a new type balloon, Dr. Max Cosyns, who was with Professor Pickard last summer in his ascent into the stratosphere, and Ernest Debuyser, a noted Belgian aeronaut, have made several trips lasting 24 hours or more. Most of their trips have been over Belgium and France. Their craft is equipped with devices to permit it to rise or descend at will or remain stationary. Dr. Cosyns plans to make a trip into the stratosphere.

Recipes For This Week

(By Betty Barclay)

RIPE GRAPE JELLY

4 cups (2 lbs.) grape juice
7 1/2 cups (3 1/2 lbs.) sugar
1/4 bottle fruit pectin.

To prepare juice, stem about 3 pounds fully ripe grapes and crush thoroughly. Add 1/2 cup water, bring to a boil, cover, and simmer 10 minutes. Place fruit in jelly cloth or bag and squeeze out juice. (If Malagas or other tight-skinned grapes are used, the juice of 1 lemon should be added to prepared juice.)

Measure sugar and juice into large saucepan and mix. Bring to a boil over hottest fire and at once add bottled fruit pectin, stirring constantly. Then bring to a full rolling boil and boil hard 1/4 minute. Remove from fire, skim, pour quickly. Pack in hot jelly at once. Makes about 11 glasses (6 fluid ounce each).

CARROT AND CABBAGE SALAD

1 package lemon-flavored gelatin
1 pint warm water.
2 tablespoons vinegar.
1 teaspoon salt.
1 cup raw carrots, grated.
1 cup raw cabbage, finely shredded.

Dissolve gelatin in warm water. Add vinegar and salt. Chill. When slightly thickened, fold in carrots and cabbage. Turn into individual molds. Chill until firm. Unmold on crisp lettuce. Garnish with mayonnaise. Serves 8.

Licenses to keep cows are issued by the London County Council to fifty places in the County of London, most of these being in the East End. There are more than 1,000 cows kept in this way.

DECREASE IN RELIEF COSTS IS FAVORABLE SIGN

Toronto, Ont.—A substantial drop in unemployment relief costs throughout Canada in the last two months is giving permanentists grounds for hope that the load is being more than seasonally lightened and that a gradual tapering off in expenditures may be expected.

Figures gathered by the Canadian Press in Ontario and the western provinces reveal a considerable flow from relief columns to regular pay rolls as industry starts here and there into new life. In Ontario where relief expenditures reached a total of \$17,000,000 in the eight months between November 1 last and July 1 this year, the feeling persists that the 25 per cent drop in direct relief costs in May and June reflects decided improvement.

In British Columbia ranks of unemployed were thinned to the extent of 22,000 between March and June. The number of men in government-maintained camps was also reduced by about 2,000 in that period. The numbers under provincial care in March were 132,838; April, 125,405; May, 120,515, and June, 110,489. Improvement in the relief situation is due to the fact that thousands of men have been absorbed by the lumbering, mining, and fishing industries. Coast lumber companies are reported to have resumed logging operations on a large scale.

Relief costs in Alberta have not been reduced quite so much as in B.C. Expenditure in May, June and July totalled \$26,230, compared with \$674,725 in February, March and April. Family relief increased slightly and single unemployed relief dropped \$31,000 in the last three months. Urban centres in Saskatchewan had 27,700 (partly estimated) persons receiving direct relief in July at a cost of \$140,050, the lowest for any month of the year so far. In March, 36,394 obtained direct relief at a cost of \$221,987.

In Manitoba direct relief costs dropped from \$433,309 for 76,457 persons in April this year to \$374,216 for 61,178 persons in June. In April also there was an outlay of \$78,632 for indirect relief, benefitting 552 persons and no indirect relief expenditure in June.

Prince Edward Island reports a greater demand for relief this year than last. For the months of May, June and July, 1932, provincial expenditure totalled \$5,494, and for the same months of this year combined provincial and municipal expenditure was \$11,706.

Nova Scotia figures have not been compiled but officials report "some improvement over last year."

Christians Massacred

Reported 300 Assyrians Slain By Iraq Troops

London, Eng.—The Daily Herald reported today that more than 300 Assyrian Christians had been massacred in a village in northern Iraq within two miles of an Iraqi army camp.

The killings were attributed to the commander of Iraqi troops in northern Iraq, who was said to have used Kurds to attack the Assyrians as they were returning from French Syria after recent border disturbances.

The commander also was alleged to have caused 14 Assyrian prisoners to be summarily shot.

The Herald said the affair would be investigated by the League of Nations.

Wins Cadet Medal

Connaught Ranges, Ont.—Young cadet E. H. Tupper, of Wayne, Alberta, posted a fine score of 99 out of a possible 100 in the open match for cadets to take the Cadet medal and \$8 in the D.R.A.'s annual meeting. The open match is one of the features of the cadet miniature rifle shoot being conducted along with the great service rifle classics.

W. N. T. 2008

Recompense Farmers

Millions Of Dollars To Be Paid To United States Growers

Washington.—Millions of dollars in benefit payments to cotton and wheat farmers for agreements to curtail their production will be freed under a policy made public by Henry Morgenthau, Jr., governor of the farm credit administration, after approval by President Roosevelt.

Under it, payments will be made to cotton farmers, who agreed to plow up 25 to 50 per cent of their growing crops, without requiring deductions for amounts they owe the government for seed and crop production loans.

Morgenthau said a similar policy will be pursued in the case of payments to be made this fall to wheat farmers for agreements to reduce their acreage planted for harvest in 1934 and 1935.

About \$90,000,000 is scheduled for distribution to wheat farmers and \$110,000,000 to cotton farmers.

Where the farm credit administration has a claim against the farmer the benefit cheque will be made out jointly to the farmer and the administration.

Tax Revenues Increase

Figures For July Higher Than Corresponding Month Last Year

Ottawa, Ont.—For the first month since the beginning of the current fiscal year Canada's revenue from taxation in July showed an increase over collections for the corresponding month last year. The national exchange came out of it, \$642,920 to the good. For the four months, however, revenues were down by \$9,153,457.

The improvement was due to excise taxes which last month totalled \$5,889,135, as against \$7,510,966 for July, 1932, or a betterment of \$1,378,170. This gain was partly offset by a drop of \$406,900 in excise duties, and \$25,602 in sundry collections. However, with the declines balanced against the gains, revenues were still on the right side.

Trial Shipment Possible

Cattle Available For Export Via Hudson Bay Route

Saskatoon, Sask.—Possibility of a trial shipment of cattle to England this fall via the Hudson Bay route still exists, according to information gained here.

A large livestock company, in a communication to the Saskatchewan Board of Trade, pointed out that the firm could furnish 200 head of cattle for such a shipment. This company is in communication with overseas buyers.

It also is known, too, that a limited number of cattle suitable for overseas shipment still are available in the Saskatoon district.

Discuss Bus Competition

Toronto, Ont.—In a special despatch from its Ottawa correspondent, the Globe says another conference of representatives of the Federal and Provincial Governments will be called to meet in November by Hon. Dr. R. J. Manion, Minister of Railways and Canals, to deal with the problem of bus and truck competition with the railways.

French Flyers Greeted

Paris, France.—Several thousand persons cheered Maurice Rossi and Paul Codos at the city hall, where they were greeted on behalf of the city of Paris in recognition of their recent flight from New York to Rayak, Syria, which set a new distance record.

Alberta's Debt Reduced

Edmonton, Alberta.—Reduction of \$4,371,458 in Alberta's public debt is indicated in the first quarterly statement of the provincial government issued recently. This leaves the net funded and unfunded debt, as at June 30, at \$10,237,273.

215,000,000 Bushel Crop

Ottawa, Ont.—Private estimates to capital place this year's western wheat crop at not more than 215 million bushels, or about nine bushels per acre.

FEARS STRIKE POSSIBLE

Senator James Murdoch, Chairman of the Canadian Brotherhood of Railway Trainmen, who stated at Montreal recently that if there was no change in the attitude of the railways on the second wage cut he believed the running trains would go on strike throughout Canada.

Returns From Northern Trip

Major-General MacBrien Inspects

Posts At Herschel Island, Edmonton, Alberta.—Major-General J. H. MacBrien, C.M.G., D.S.O., commissioner of the R.C.M.P., arrived here after making an aeroplane trip as far north as Herschel Island to inspect posts. He made the flight from Herschel Island in 48 hours aboard an R.C.A.F. Fairchild piloted by Squadron Leader E. L. McLeod.

The commissioner expressed himself as delighted with the trip. He had no announcements to make, being stating that there was a possibility of some changes.

British Columbia Floats Loan

Part Of \$3,000,000 Bought By Victoria Syndicate For Relief

Victoria, B.C.—Hon. J. W. Jones, Minister of Finance, announced recently he had floated a loan of \$3,000,000 at a cost to the province of 5.67 per cent.

One million dollars of 20-year five per cent bonds was sold outright to a syndicate here. This sum will be used for unemployment relief.

The same syndicate took an option on the additional \$2,000,000 on the same terms.

Flood Destroys Crops

Peiping, China.—Missionaries at Tao-Chowfu in Shantung province telegraphed the China famine relief commission saying a break in a Yellow river dike had caused a flood over an area 50 miles long and 20 miles wide between Tunning and Tao-Chowfu. All crops were destroyed, the message said.

Fisher Body Contest

Saskatchewan Boy Winner In Canadian Western Section

Chicago.—Joseph Olafson, Midway Park post office, Leslie, Saskatchewan, was awarded one of the Canadian scholarships in the Fisher Body Craftsmen's guild contest.

His award was in the senior Canadian section, and he, with David Tennant of London, Ont., topped senior Canadian entries in this year's contest.

R. Guthrie, also of London, Ont., was given chief Canadian award in the junior section.

One hundred and twelve preliminary winners in Canada and the U.S.A. attended the banquet at the armories here to learn who would be the four American and the three Canadian boys to be awarded \$5,000 university scholarships.

R. S. McLaughlin, president of the Canadian section of the Fisher's Guild, announced the Canadian awards. Olafson was the winner in the senior competitions of the Canadian western provinces.

Investigate Cuban Affairs

Probe Bank Accounts Of Deposed President Machado

Havana.—Bank accounts and properties of the deposed President Gerardo Machado and his followers were investigated with a view to requisition by their successors.

Secretary of the Treasury Joaquín Martínez Sáenz, a leader in the A. B. C. Secret Society, began the probe as Provisional President Carlos Manuel de Cespedes' administration weeded out persons suspected of profiting by the Machado regime.

It was reliably reported embargoes are planned on fortunes and property of the Machadistas.

Reports from the Bahamas said the erstwhile president planned to rent a place near Nassau.

U.S. Recovery Plan

Entire World Is Watching Results With Interest

Washington.—Ernest Minister G. W. Forbes, of New Zealand, a visitor in Washington, says in a statement that in his opinion not only the United States but the entire world has a "vital stake in the success of President Roosevelt's recovery plan."

"New Zealand is following the course of business recovery plans in the United States with the keenest possible interest, and with every hope that they will be fully successful."

Wheat Grades Vary

Ottawa, Ont.—The wheat harvest in western Canada is proceeding rapidly and early threshing results show a great variation with grades generally high, states the weekly telegraphic crop report issued by the Dominion Bureau of Statistics.

JAMAICA FLOODS CAUSE HEAVY LOSS OF LIFE

Kington, Jamaica.—Seventy persons were drowned in floods which struck this city and the parishes of St. Thomas, St. Catherine and St. Mary, following a storm accompanied by lightning and high wind.

The damage was estimated at approximately \$2,000,000 as bridges and buildings were swept away and banana plantations levelled. One hundred houses were abandoned as they were damaged to badly.

The government established relief stations to care for the homeless. The storm, which lasted six hours, was described as the worst in 80 years.

The water rose as high as six feet in the streets, and rushed through dwellings, washing away many occupants trapped within. Two children were swept away from their mothers' arms by the floods and drowned.

The weather had improved later but the suburbs and the city were strewn with wreckage. Many houses were struck by lightning and railway and telephone services were disrupted.

Known deaths were confined chiefly among the poorer residents, trapped in the low-lying district adjoining the rivers.

In the rural sections of Jamaica, communication lines were down, and it was impossible to estimate the extent of the damage.

Seaplane Tragedy

Three Lives Are Lost In Crash In British Columbia

Vancouver, B.C.—Fog hovering over Anderson Lake, 115 miles north of Vancouver, was believed responsible for loss of three lives, one of a woman, and serious injury to two other occupants of a seaplane which crashed into the lake at dusk Tuesday evening. A sixth occupant was slightly hurt.

The machine, piloted by Gordon K. Mackenzie, left Vancouver for Bridge River carrying five passengers. Ernest Dean, 38, with his wife, a bride of a few months, bound for Bridge River, and W. J. Butt, 50, Vancouver, business man and proprietor of McKillivray Lodge, near the scene of the accident, lost their lives, while Pilot Mackenzie and Oils Desner, Prince Rupert mining man, suffered fractured skulls and other injuries.

A. Gray Parker, sixth occupant of the machine, escaped with only minor hurts.

Prince Likes Biarritz

Is Spending Holiday At Popular Resort In France

London, Eng.—Hatless and wearing a grey lounge suit, the Prince of Wales took off by aeroplane from the lawn of his home at Fort Belvedere, near Windsor, bound for Biarritz, France, where he will holiday the rest of the month. The prince will spend most of his time at the Chiberta Country Club. He will visit friends with homes in the vicinity for a few days.

The prince always receives a hearty welcome in France, where he maintains the tradition established by his grandfather, King Edward.

The prince is fond of Biarritz because the inhabitants and visitors restrain their curiosity over his movements.

Premier Returning To Canada

London, Eng.—After a two-months' stay in England, during which time he represented Canada at the World Economic Conference, Prime Minister R. B. Bennett leaves for home on the "Empress of Britain," sailing August 26. The Prime Minister returned here Monday from Harrogate where he had been spending a holiday since the close of the conference.

No Change Yet

Washington.—Inquiries at the White House on President Roosevelt's policy for inflation and managed currency brought the response that there had been no change and that future action depends on conditions.

When asked by Major Louis D. Taylor, to make a flight across Canada, possibly non-stop, the smiling British flying family of Captain Jim and Amy Molison stated they will certainly bear it in mind. Unfortunately it will take two months to have a plane ready for the long hop from Vancouver to Halifax and the idea has been filed away for future reference. Our pictures show the intrepid flyers who successfully navigated a non-stop flight from England to the United States only to crash within sight of their goal. Inset is a picture of Vancouver's popular Mayor.

Stony Plain Sun.

Published Every Thursday at The Sun Office, Stony Plain.

Thursday, August 24, 1933.

Advertising Rates:

Display, 40 cents per column inch; plate, 25c per column inch. Readers in Local, 15c line. Legal and Municipal Notices, etc., 15c line first insertion; 10c line each subsequent insertion.

Persistent Advertising.

Robins Crusoe was an advertiser even if he was marooned on an island with nothing but black Friday and a Billy goat. He wanted the passing world to know he was there and wanted to get off, so he advertised the fact.

True, he had nothing but a shirt, but he put it up on the highest place he could find, and waited a long time for results.

Notice this, Robinson did not pull his shirt down when he didn't get results the first week. He kept it there, and kept waiting, and in the course of time he got results.

Who shall say that this advertising did not pay? How much more reason there ought to be for the man who has something to sell to learn this lesson, when he has every agency at hand for making the fact known.

The newspaper reaches the buying public in any community, and if he has anything that public wants the fact will be known.

Any merchant who will take home the lesson that Crusoe left his shirt in the air until he got results will be just as sure to get the same results if he keeps steadily at the game of telling the people about his business.

Saturday Eve. Post, one of the biggest papers, has just the same trouble that the small weeklies have as it charges \$7 for 1 line or \$450 for a page, but it covers its field just the same as the local paper and only gets results accordingly.

The business which does not use paper advertising may exist, but proof is evident that sooner or later it will go by the board, says an exchange.

CHILD PROTECTION.

For \$1.00 per year the General Accident Assurance Company of Canada will insure a school child for any out of pocket expenses in connection with an accident whether it be Hospital, Nurse, X-Ray, Dentist or Doctor's Bills we will pay them up to \$100.00.

Here is the application—
I hereby make application to THE GENERAL ACCIDENT ASSURANCE COMPANY OF CANADA for the undernamed to be included in the School Group Policy, the inclusion to be based upon the following statement of facts which I declare to be true and correct—

FULL NAME.....
AGE.....

GEO. J. BRYAN AGENT,
Stony Plain, Alberta.

Unimportant People.

Well, what is it that people like to read in the newspapers, asks an exchange.

Can it be said that many of us want to be told in large, splashing headlines the things which are good for us to know?

Among the things which a great number of us want to read largely are news stories of disaster and of sensational crime, sport news, news with what we politely call "sex interest."

These are the things which absorbed the attention of people since the ages long before there were newspapers. It has always been so.

And so, while bees are important because they produce honey, and sheep because they produce mutton, "unimportant" people are important and figure in the headlines and have their picture in the papers, if their doings provide such news stories.

Used text books for sale at The Sun Book Shop, Stony Plain.

New Public School Readers.

So rapidly has the science of teaching of reading in schools advanced, the departments of education of the four western provinces are discarding the uniform reader in use during the last 11 years. At a conference of the four deputy ministers held at Banff last week, it was decided to recommend to their respective departments that a new Public school reader be adopted.

VACATION TIME

go for a week, a month or more, but go! DELIGHTFUL RESORTS FROM COAST TO COAST offer ample scope for your favored recreations

EAST

MUSKOKA, MUSKOKA LAKE, 1,600 ISLANDS—There are only a few of the resorts in Ontario which is a veritable land of Huron's Dances. In this province there is a resort to suit every taste and purse.
IN ANCIENT QUEBEC—The Vacation Land of Romance, where old-world customs and handicrafts still abound. Many lovely resorts on the Lower St. Lawrence, in the heart of French-Canada.
THE PROVINCES BY THE SEA—Sea side resorts and woodland playgrounds abound in the Maritime Provinces. Fishing, sailing, forest rambles make each day a joy.

WEST

CANADIAN ROCKIES—Visit the playground of Canada's wonderful West—a land of mystery—of towering, upland mountains range. Stay over at Jasper National Park—enjoy its superb hotel service—saddle-golfing and mountain climbing. Jasper Park Lodge open May 21st to September 30th.
TRIANGLE TOUR—Westward from Jasper, see the scenic beauty of the Triangle Tour—along the scenic Shuswap to Prince Rupert—by boat through the Shuswap Sea of the North Pacific to Vancouver—back through the spectacular mountain scenery of the Rockies of the Fraser and Thompson Rivers.

Take a boat trip to Alaska, visit the famous Klondike and Yukon. Suggested Canadian National Railway Coast offers a twice-weekly service Vancouver to Prince Rupert. Excellent service to Skagway for Lake Alton and to the White Pass and Yukon Railway, the Klondike Trail to 10,000 feet of altitude and a constant panorama of magnificent scenery.

High School Courses by Mail

For some years the Dept. of Education has conducted correspondence courses in the elementary grades of school for the convenience of those unable to attend a school. Over 2500, chiefly those in outlying parts of the province, have taken advantage of these. These courses will be extended to include instruction in all 4 grades of High school work, with the exception of commercial and technical courses. A fee of \$8 per unit is charged.

Junior Grain Competitions.

Judging is now in progress by officials of the Dept. of Agriculture of the field crop competitions of junior grain clubs. This year there are 117 of these competitions, an increase of 45 over 1932. The membership in the grain clubs now totals 1583; the clubs extend from Bow Island on the south to Grand Prairie on the north; and as far west as Edson.

Summer School Attendance.

An attendance of 870 was recorded at the teachers summer school just closed at the U. of A. This compared with 981 last year.

The Summer school was operated jointly by the University and the Department of Education.

Alberta Crop Report.

Cutting of the wheat crop in Alberta is fairly general in all parts of the province. Crops have ripened so rapidly under the continued warm, dry weather that harvesting has become general somewhat earlier than is usual.

While the department is not issuing an official estimate of what the average yield over the province is likely to be, it has become certain that the total harvest of wheat will be far below that of 1932. Over a fairly well-defined area in the southeast part of the province, described roughly as extending from South Saskatchewan river north to Tp. 33 and from Rg. 15 to the eastern boundary of the Province, excluding irrigation areas, the crops have largely failed due to drought, and a very large percentage of the seeded area here will not be harvested; while on the balance the yield will be very light indeed. Over the balance of the province aside from this area, however, there will be a medium crop of wheat with estimates of yields ranging from 10 to 15 bu. in districts immediately adjacent to the drought area both south and north, to as high as 25 bu. in a few favored districts elsewhere in the province.

Drought conditions affected the coarse grains more seriously than wheat. In most districts in the central and southern areas there will be a distinct shortage of green feed and other feed crops. The whole feed situation is now being reviewed by the Dept. of Agriculture to ascertain what action may be necessary.

Brightbank News

Harvesting is in full swing in this and the surrounding districts.

Lacknook school board has engaged their teachers for the coming season: Miss Crnad of Edmonton and Miss Strictie of Evansburg have been appointed. It is said they will occupy the C Miller residence.

The fishing party headed by J Young returned from Wabamun Lake with 102 good-sized jackfish, one weighing over 16. One very large one getting away with line and all, and nearly pulling one of the party overboard. The fishes started biting just as the unlucky fisherman was in the act of lighting his pipe.

All of Miss Ella Krause's friends are pleased that she is recovering from her recent illness.

Mr C Hedge was a weekend visitor with relatives in Mewassiu.

Miss Sheila Young has been a visitor with Mr and Mrs P Shaw and family, Edmonton.

Miss Susan Kyle was a recent visitor with her sister, Mrs E Jackson, Highvale.

Raspberries are very plentiful this year, and of a record size.

It is reported that Mr Carl Groskopf will soon be returning from Drinkwater, Sask. His many friends will be pleased to see him back again.

St. John Ambulance Ass'n.

Those acquainted with the work being done by the St John Ambulance Ass'n will be interested in knowing that the jurisdiction of the Edmonton Centre branch has been extended by the consent of the Executive of the Province, to include all within a radius of 25 miles of the City of Edmonton. Stony Plain, therefore, is within the Centre's jurisdiction, insofar as St John Ambulance work is concerned.

As the Fall and Winter season will soon be with us, the Association will shortly be planning their work in First Aid, Home Nursing, etc.; and as the Association desires to be of assistance to all in this new jurisdiction in St John Ambulance work, they ask that any with an interest to take up this work to drop them a line, and they will make an endeavor to meet their desires.

The extension of this jurisdiction is a privilege never before extended to the Centre's adjoining towns and district; and the officers of Edmonton Centre trusts that the results will not be disappointing.

All communications addressed to Secretary, Edmonton Centre, St John Ambulance Association, Old Police Station, 98th St., Edmonton, will have full attention.

New Canadian Stamp.

The latest stamp issued by the Canadian Government, the 5-cent voucher printed to commemorate the 100th anniversary of the pioneer steamship Royal William, from Quebec in 1833, are now on sale. The new stamp is blue in color, and shows a picture of the Royal William on the high seas, with black smoke pouring from a tall smokestack set up between 1st and 2d masts. A sailing vessel can be seen in the distance.

Stony Plain and District

Mrs I I Peters and daughter Vera returned Saturday from a three-weeks' holiday spent at Laird and at Blaine Lake, Sask.

Mr and Mrs Geo. J. Bryan made a motor trip to Lac La Biche over the week-end.

Mr and Mrs D Moyer left Friday on a Canadian National Ry. excursion to Vancouver.

Mr and Mrs Geo. R. Bone are on a motor trip to Banff this week.

Mrs Hazel Lundy, Lacombe, was a Stony Plain visitor on Monday.

Mrs Reginald and Allin P Pugh, who had been visiting here with Mrs Gates, have returned to their home, Jasper Park.

The Jordan family, for the past month the guests here of Mr and Mrs Cody, on Monday left for their home in the Drumheller district.

The Sieber motor party arrived back in Stony on Friday evening, from their trip to Vancouver; their motometer having ticked off 3500 miles.

Mrs J A Barrie and son Bobbie of Edmonton Beach left this week for Toronto and way points, to visit relatives. They will also visit the Century of Progress Exposition at Chicago.

Mr and Mrs J A Barrie's daughter Mrs Cecil Sharpe and daughter Shirley of Vancouver are extending their visit at Edmonton Beach till the end of the season.

Hoffman & Zucht have put a new Chevrolet truck on their motor express line.

The Sun book shop has a supply of used text books on hand.

BUTTER AND EGGS WANTED at The Royal Cafe.

Bakery Re-opened.

Those who like getting their incisors into slices of Canada's finest rye bread will be pleased to know that the champion rye bread artist, Mr Philip Trapp, has re-opened his bake shop, and now keeps on hand a supply of white, brown, and rye bread daily.

Harvest Helpers.

Local grain-raisers, still in doubt as to what price they'll be getting for their grain when threshed, seem to be chary of hiring any help other than they find is absolutely necessary at the present time. Unemployed men sent out from the City have been noticed hanging around town for several days until convinced their services will not be required, or, in three cases, have been taken out by farmers for hire. The rates of hire now prevailing are about the lowest known hereabouts for a number of years.

Alberta's Success at Regina.

A review of the winnings in the various seed grain classes at the world grain congress at Regina recently, shows Alberta's total prizes to be \$24,500, with an additional \$1,700 won by members of the junior, intermediate and inter college grain judging teams. The cash prizes taken constituted more than one-third of the prize monies offered in the classes concerned. In two classes of wheat Alberta took 85 p.c. of the money, and in two classes of oats won 80 p.c. of the money.

Church Services.

Services in St. Philip's Church next Sunday, 9.30 a.m.

Service at St. Matthew Lutheran Church, Spruce Grove, 10-45 a.m. next Sunday.

German Lutheran services will be held in Stony Plain next Sunday at 2.30 p.m.

United Church service every Sunday Evg. at 7.30.

United Service at Bright Bank next Sunday Aug. 27 at 3 p.m.

There will be no English Lutheran Church Service in Stony Plain during the month of August.
